# Can Light Actually Accelerate Healing?

**YES!**  
**MEDX PHOTOTHERAPY CAN  
ACCELERATE HEALING 40% FASTER**

*Ask your clinician about how MedX Laser and Light  
Therapy can improve your quality of life.*

1.888.363.3112 (Cdn/US only) ☎ 905.670.4428 ☎ [info@medxhealth.com](mailto:info@medxhealth.com) ☎ [www.medxhealth.com](http://www.medxhealth.com)

## REDUCE PAIN AND ACCELERATE HEALING

Are you affected by:

- Head, neck and back pain
- Arthritis (Osteo and Rheumatoid)
- Post-Surgical Recovery
- Pulls, Strains and muscle injuries
- Joint twists and sprains
- Carpal Tunnel (repetitive stress injuries)
- Tendonitis
- Addictions to nicotine
- Weight challenges

How do treatments work?

Laser and Light Therapy is similar to photosynthesis in plants; sunlight is absorbed by the plant and converted into energy that the plant uses to grow. Developed over 35 years ago, this is a remarkable process that uses light to penetrate the skin's surface and underlying tissues. Much like photosynthesis, MedX Laser and Light Therapy provides light energy to your body's cells to increase their function and to stimulate your body's natural healing process, safe and easily.

### Increase

- 
- $\beta$ -endorphin release
  - Accelerated bone and soft tissue healing
  - Increased blood flow and microcirculation
  - Increased energy within the cells
  - Stimulation of fibroblasts, osteoblasts and odontoblasts
  - Effective treatment of nerve injuries

### Decrease

- 
- Decreased pain and muscle stiffness
  - Reduced inflammation, swelling, muscle tension, and hypersensitivity
  - Reduced need for pain medication drugs

*MedX Laser and Light Therapy is a safe and highly effective treatment method that offers you a rapid, drug free and non-invasive solution.*

Is this a possible alternative to drugs or surgery?

### **Absolutely!**

For some conditions, this innovative, therapeutic healing method often eliminates the need for painful, debilitating surgeries and drug therapies which may be accompanied by harmful side effects. MedX Laser and Light Therapy can be used as an exclusive treatment solution or can be used in combination with other healing methods provided by your clinic. MedX Laser and Light Therapy has proven very effective for conditions that are often difficult to treat.

Is it safe?

### **Very!**

There are no known side effects of Laser and Light Therapy. Hundreds of scientific studies have proven it a safe and highly effective way to treat a variety of conditions. MedX Laser and Light Therapy is FDA, Health Canada and CE Mark (for the EU) approved and uses superluminescent diode (SLD) clusters and class IIIB laser technology. MedX products are used by practitioners in clinics, academic facilities and hospitals as well as by professional athletes.

It has been recognized through history that sun and light energy have beneficial effects on the human body. MedX™ Health has developed innovative techniques and devices which harness these positive light elements and offer you an effective, rapid, drug-free, non-invasive healing solution.
